

Re: PR-1359A/PR-1106B

I wish to express my concerns regarding the expansion of the sewage treatment plant. It is apparent that residents' concerns about odour have not been adequately addressed and more time is needed to research this important implication of the expansion. Oakville prides itself on the excellent quality of life that it offers to its residents, therefore, council must investigate potential threats to quality of life sufficiently. I urge the council to extend the deadline for planning the sewage treatment expansion in order to allow for time to assess the impact of odour and to distribute such information to the community.

Sincerely,

**Susan Ritchie
Oakville, ON**
